# Overview

An AllSides Analysis of [White House Wire](#) in May 2025 found it displayed more outlets with an AllSides Media Bias Rating™ of Right or Lean Right than sources rated Left or Lean Left.

Overall, 44% of the content that appeared on White House Wire came from President Donald Trump's White House — either in the form of press releases or social media posts linking to official White House accounts. The other 56% of the content was comprised of news outlets. Of those news outlets, **57% were on the right, 25% were in the center, and 15% were on the left. The average of the ratings of the news sources featured on White House Wire was [Lean Right \(1.74\)](#).**

**AllSides issued a rating of Lean Right (2.50) for White House Wire, taking into account curated outlets and original content from the White House.**

The May 2025 AllSides White House Wire Analysis, conducted from May 5-18, cross-referenced articles curated on [whitehouse.gov/wire](#) with the AllSides Media Bias Rating™ for each source. [AllSides Media Bias Ratings™](#) are determined by a methodology that reflects the average judgment of all Americans. This report provides details about the methodology and how the analysis avoided bias on the part of the researchers.

White House Wire is a news aggregation website that was created and launched by the Trump administration on May 1, 2025.

Note that this analysis does not investigate whether the political leanings or biases displayed by White House Wire are intentional. Whether White House Wire should provide a broader or more balanced diversity of perspectives, and whether that would support or hinder a healthier democratic society, is a philosophical or ethical question beyond the bounds of this analysis.

# Purpose & Methodology

AllSides conducted this comprehensive media bias analysis of White House Wire to determine the political bias of White House Wire based on the media outlets that it curates.

## Content Collection & Analysis

AllSides collected the top 10 articles from White House Wire once per day at a predetermined time — 10:00am ET — over a two-week period from May 5-18, 2025. A total of 140 articles were collected; all content was pulled, including news content coming direct from White House itself.

The source of each article was evaluated against its AllSides Media Bias Rating, if it had one. Sources curated by White House Wire without a media bias rating were not evaluated to determine the percentage of articles appearing on the left, center, or right.

## How AllSides Made This Analysis as Objective as Possible

In an effort to be as objective as possible in the analysis, **AllSides only took the bias of the media outlet into account – not the content of the article itself.** For example, any article curated from The New York Post was considered Lean Right, reflecting the outlet's overall AllSides Media Bias Rating at the time of the analysis. AllSides Media Bias Ratings reflect the average view of people across the political spectrum, not one individual or group. AllSides' media bias rating methodology is based on Blind Bias Surveys of Americans across the political spectrum and expert panel reviews by a multipartisan group, preventing one elite group or individual from having a disproportionate impact on the ratings.

# In-Depth Findings

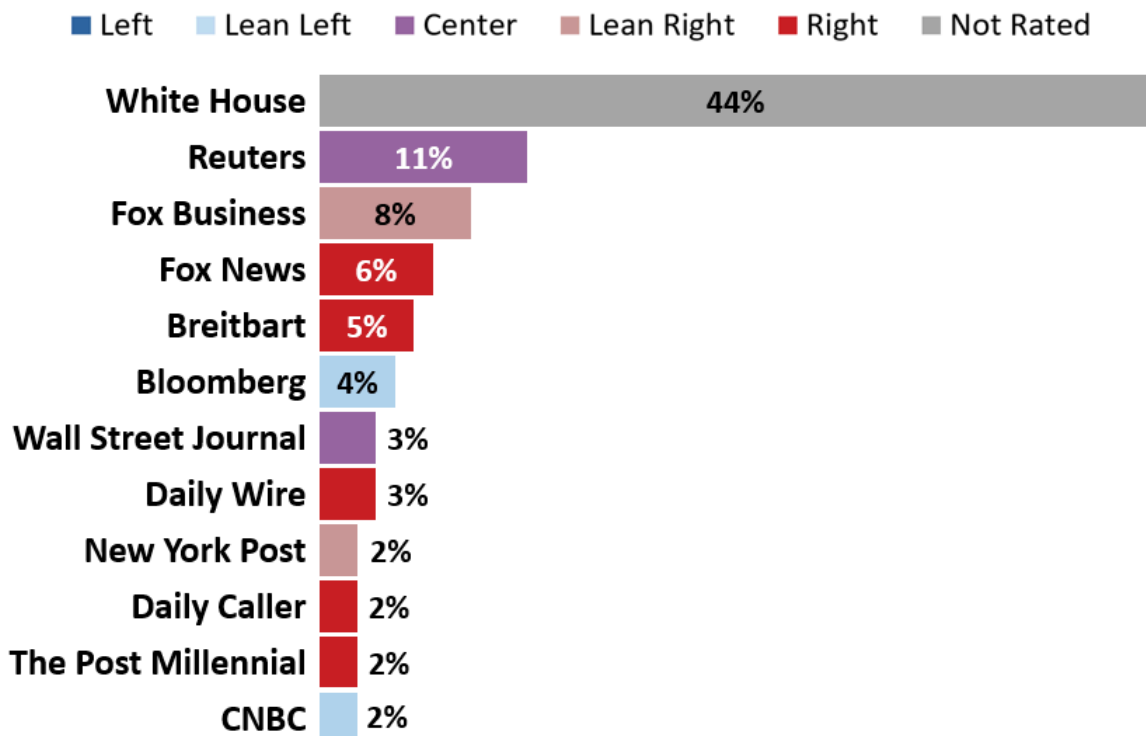

The AllSides analysis found that White House Wire curated news sources on the right far more than sources on the center or on the left.

## Top Sources

Out of 140 total articles analyzed, the source that appeared the most was White House itself, appearing 61 times across different mediums: press releases, X posts from White House or Trump administrative officials, Truth Social posts from President Trump, and YouTube. White House content accounted for 44% of all content appearing on White House Wire.

The five news sources that appeared most often were [Reuters \(Center bias\)](#), [Fox Business \(Lean Right bias\)](#), [Fox News \(Right bias\)](#), [Breitbart \(Right bias\)](#), and [Bloomberg \(Lean Left bias\)](#).

## Top Sources Featured on White House Wire, with Corresponding AllSides Media Bias Rating™

Percentage of articles, out of 140, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between May 5–18, 2025. See report for details.

## Bias of Outlets Curated

There were 79 articles not attributed directly to White House, representing 56% of all articles analyzed. This featured 15% articles from sources on the left (0% Left, 15% Lean Left), 25% from Center-rated sources, and 57% from sources on the right (35% Right, 22% Lean Right). Three percent of articles were not rated by AllSides.

### AllSides Media Bias Ratings™ of Sources Curated on White House Wire

Percentage of articles, out of 79, attributed to a source and its rating based on AllSides Media Bias Ratings™. Excludes content from the White House directly. Content collected between May 5–18, 2025. See report for details.

# Background on White House Wire

White House Wire is a news aggregation website that was launched by the Trump administration on May 1, 2025.

A White House staffer [described](#) White House Wire as “a place for supporters of the president’s agenda to get the real news all in one place in a shareable and readable format,” and “a one-stop shop for news and is part of the Trump administration’s effort to provide transparency and institute policies that put America first.”

[Several](#) people [compared](#) the site to [Drudge Report](#), a conservative-leaning, but Trump-critical news aggregator, noting the similar layout of the websites. Matt Drudge wrote "IT TAKES AN ENTIRE WEST WING TO COMPETE WITH DRUDGE" adding that he was considering a lawsuit. (AllSides rates Drudge Report as Center, though nearly Lean Right, due to its reliance on sources on the left).

# About AllSides™

AllSides™ is a media solutions company that strengthens our democratic society with [balanced news](#), [media bias ratings](#), [diverse perspectives](#), and [real conversation](#).

AllSides' balanced newsfeed provides news from the left, center, and right and is powered by over 2,400 AllSides Media Bias Ratings™ that reveal the average judgment of Americans, not one elite group. AllSides serves news consumers at AllSides.com and provides patented technologies, tools and services — including media bias audits — to media companies, nonprofits, businesses and other organizations. Visit [AllSides.com/services](#).

AllSides provides a platform for a diverse range of perspectives on current events and political issues. This includes presenting news and analysis from multiple viewpoints, including those that may not be represented in mainstream media. AllSides aims to foster greater understanding and dialogue by providing a space where people can learn about and engage with perspectives that differ from their own.

AllSides' mission is to free people from filter bubbles so they can better understand the world — and each other. AllSides [employs](#) a multipartisan team of editors who review and curate news articles from a variety of sources. The articles are then presented side-by-side in a balanced newsfeed that reveals the political perspective of the source.

Since 2012, AllSides has been analyzing the media bias of news outlets using its patented and proprietary systems, providing over 2,400 [media bias ratings](#) for news sources, writers, fact-check organizations, and think tanks. AllSides believes everyone is biased, and that's okay. But hidden bias can manipulate, mislead, and divide us.

AllSides provides Media Bias Audits to news companies interested in discovering their bias and providing more objective, balanced news. Its patented and proprietary system reveals how average Americans perceive the political bias of news reporting, and its multipartisan panel provides recommendations for achieving more balanced news.

In addition to providing news and analysis, AllSides also offers tools and resources for individuals, schools, and organizations interested in promoting media literacy and understanding. This includes the [AllSides Media Bias Chart™](#), [AllSides for Schools](#), [Red Blue Translator](#), and other [tools](#) and [services](#).

## About AllSides Media Bias Ratings™

AllSides empowers you to understand the role media bias plays in the news and information you consume. [AllSides Media Bias Ratings™](#) and the [AllSides Media Bias Chart™](#) help make news bias transparent, allowing you to easily identify different perspectives and political leanings so you can get the full picture and think for yourself.

AllSides Media Bias Ratings™ are based on a scientific, multipartisan analysis, and are meant to reflect the average view of the American public. In other words, they are meant to reflect the average view of people across the political spectrum, not one individual or group.

AllSides believes there is no such thing as [unbiased news](#), and that concealed bias can mislead and divide us. The best approach is to acknowledge and balance this bias, so that people can consider multiple viewpoints and gain a more comprehensive understanding of the world around them.

AllSides assigns a rating of [Left](#), [Lean Left](#), [Center](#), [Lean Right](#), or [Right](#) to each media outlet or writer, as well as a numerical rating using the [AllSides Media Bias Meter™](#), which provides more nuance in each category.

The AllSides patented bias detection and display technology is powered by a combination of the ‘wisdom-of-the-crowd’ technology and statistical research and methodologies. The system utilizes multiple methods for calculating media bias, and combines them for the best results. For each source, the methodology may include:

- **Blind Bias Surveys** — A survey that asks respondents to rate the media bias of a news outlet on a left-right scale without knowing the news source or author they are reviewing. AllSides normalizes these data based on respondent ideology to ensure that the audience reflects the social and political diversity of the nation.
- **Editorial Reviews** — A multipartisan panel conducts in-depth reviews of a media outlet. The Editorial Review Panel includes people from across the political spectrum. During this process, each reviewer independently evaluates and suggests a rating for the source. Then, the group discusses individual findings, shares impressions, and comes to an agreement on the result.
- **Third Party Data** — When available and relevant, data that is conducted by a transparent, credible source may inform AllSides Media Bias Ratings™. AllSides always notes which third-party analyses it has taken to account on the source page for any outlet.
- **Community Feedback** — Visitors to AllSides.com can vote on the rating for any outlet. This feedback does not determine our ratings, but may trigger a deeper review.
- **Independent Reviews** — An AllSides reviewer assesses content and comes to a general conclusion on a source’s bias. This is AllSides’ lowest level of analysis, usually undertaken to give initial, low-confidence ratings.

For more information about how AllSides rated media bias, visit its [media bias rating methods page](#).
