# Overview

An AllSides analysis of [Yahoo! News](#) in June 2025 found that it displayed more outlets with a AllSides Media Bias Rating™ on the left and center than on the right.

Overall, **53% were from outlets on the left (19% Left, 34% Lean Left), 33% from Center-rated outlets, and 2% from outlets on the right (0% Right, 2% Lean Right)**. Reuters (Center) and Associated Press (Left) were the two most commonly featured outlets on Yahoo! News.

Based on the bias distribution, AllSides rated Yahoo! News Lean Left (-1.55).

The results of the June 2025 AllSides Yahoo! News Analysis were fairly consistent with AllSides' [2022 analysis](#) of Yahoo! News.

The June 2025 AllSides Yahoo! News Analysis, conducted from June 16-29, cross-referenced articles curated on [news.yahoo.com](https://news.yahoo.com) with the AllSides Media Bias Rating™ for each source. [AllSides Media Bias Ratings™](#) are determined by a methodology that reflects the average judgment of all Americans. This report provides details about the methodology and how the analysis avoided bias on the part of the researchers.

Note that this analysis does not investigate whether the political leanings or biases displayed by Yahoo! News is intentional. Whether Yahoo! News should provide a broader or more balanced diversity of perspectives, and whether that would support or hinder a healthier democratic society, is a philosophical or ethical question beyond the bounds of this analysis.

# Purpose & Methodology

AllSides conducted this media bias analysis of Yahoo! News to determine the political bias of the aggregator based on the media outlets it curates.

## Content Collection & Analysis

AllSides collected the top 10 articles from Yahoo! News' homepage once per day at a predetermined time — 10:00am ET — over a two-week period from June 16 – 29, 2025. A total of 140 articles were collected.

The source of each article was evaluated against its AllSides Media Bias Rating, if it had one. Sources curated by Yahoo News without a media bias rating were not evaluated to determine the percentage of articles appearing on the left, center, or right. (See the [Appendix](#) for a list of all articles evaluated).

## How AllSides Made This Analysis as Objective as Possible

In an effort to be as objective as possible in the analysis, **AllSides only took the bias of the media outlet into account — not the content of the article itself**. For example, any article curated from The New York Post was considered Lean Right, reflecting the outlet's overall AllSides Media Bias Rating at the time of the analysis. AllSides Media Bias Ratings reflect the average view of people across the political spectrum, not one individual or group. AllSides' media bias rating methodology is based on Blind Bias Surveys of Americans across the political spectrum and expert panel reviews by a multipartisan group, preventing one elite group or individual from having a disproportionate impact on the ratings.

# In-Depth Findings

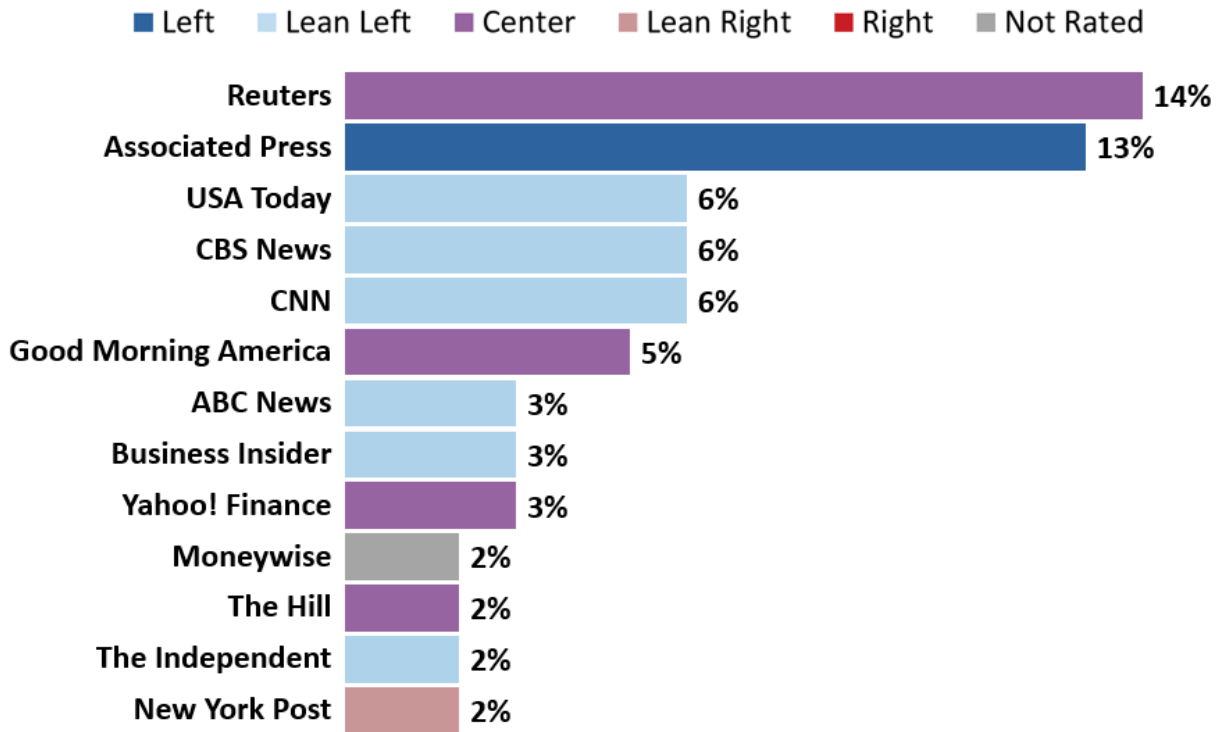

The AllSides analysis found that Yahoo! News curated news sources on the left far more than sources in the center or on the right.

## Top Sources

Of the 140 total articles analyzed, the source that appeared the most was [Reuters \(Center bias\)](#), which appeared 14% of the time. It is followed up by four sources on the left: [Associated Press \(Left bias\)](#), [USA Today \(Lean Left bias\)](#), [CBS News \(Lean Left bias\)](#), and [CNN \(Lean Left bias\)](#).

The only outlet curated from the right, out of all 49 outlets appearing during the content collection period, was [New York Post \(Lean Right\)](#). It appeared 2% of the time.

## Top Sources Featured on Yahoo! News, with Corresponding AllSides Media Bias Rating™

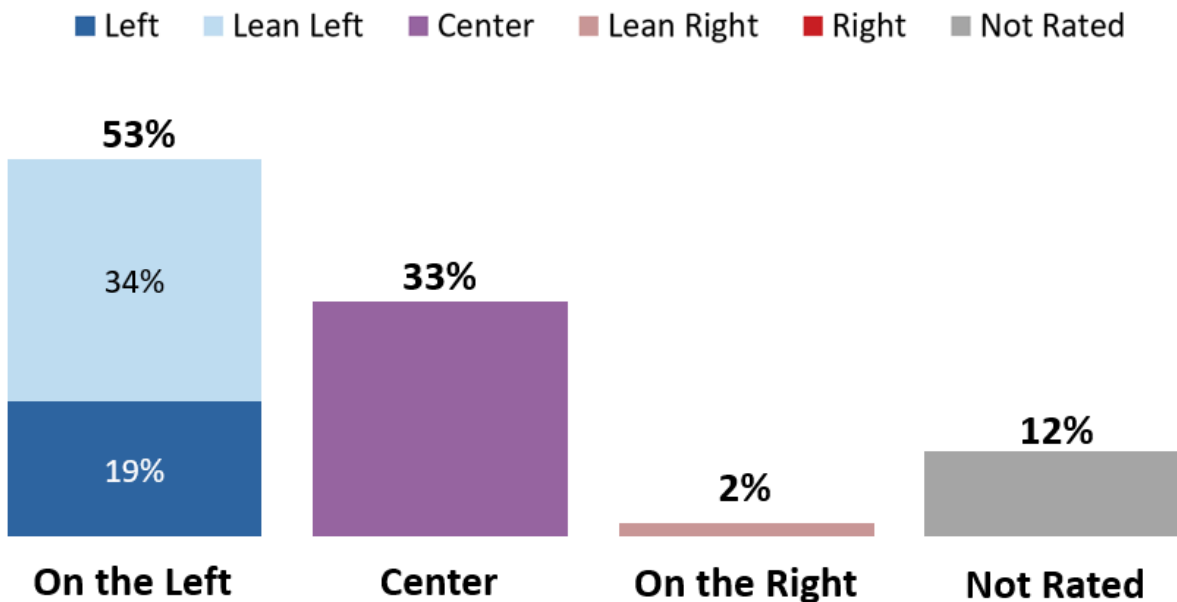

Percentage of articles, out of 140, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between June 16-29, 2025. See report for details.

## Bias of Outlets Curated

Of all 140 articles analyzed, 53% were from outlets on the left (19% Left, 34% Lean Left), 33% from Center-rated outlets, and 2% from outlets on the right (0% Right, 2% Lean Right). Twelve percent of articles were from outlets not rated by AllSides.

## AllSides Media Bias Ratings™ of Sources Curated on Yahoo! News

Percentage of articles, out of 140, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between June 16-29, 2025. See report for details.

## 2022 and 2025 Data Compared

AllSides conducted an [analysis of Yahoo! News in 2022](#), collecting 588 articles. The analysis used two methods, in one AllSides collected all curated content via an RSS feed for four days. In the second method AllSides collected the top 15 headlines on Yahoo! News' homepage for 10 consecutive days.

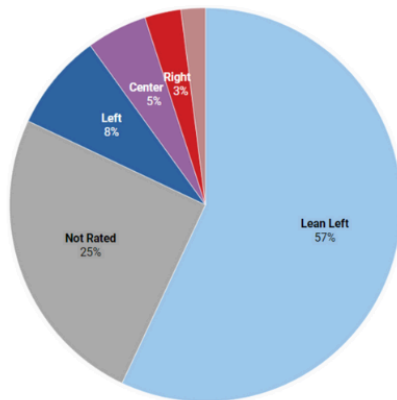

The 2022 analysis showed that 65% of articles were from a source with a Left or Lean Left AllSides Media Bias Rating and 5% were from sources AllSides rates as on the right. The top outlets curated across Yahoo! News were the Associated Press, Insider, Yahoo News, The Daily Beast, Ukrayinska Pravda, CBS News, HuffPost, USA Today, AFP, and Fox News.

Of the top 15 stories featured on the homepage in 2022, 55% were on the left while 1% were on the right. The top outlets featured on the homepage were the Associated Press, Yahoo News, New York Times, ABC News, The Daily Beast, Reuters, “In The Know” by Yahoo, Insider, HuffPost, and Washington Post.

**The AllSides Media Bias Rating of Sources Curated by Yahoo! News**

Lean Left (57%) Not Rated (25%) Left (8%) Center (5%) Right (3%) Lean Right (2%)

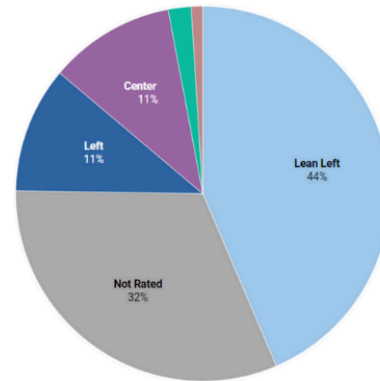

Content collected between April 26, 2022, and April 30th, 2022 – 588 stories in total. See report for methodology.  
Chart: AllSides • Source: Yahoo News

**Majority of Yahoo! News Top Stories Are Left or Lean Left**

Outlet bias of top 15 Yahoo! News stories analyzed from homepage on 10 different days.

Lean Left (44%) Not Rated (32%) Left (11%) Center (11%) Mixed (2%) Lean Right (1%)

Content collected between April 26, 2022, and May 5, 2022. Each day, the top 15 stories from Yahoo News' homepage were analyzed – 150 stories in total. See report for methodology.  
Chart: AllSides • Source: Yahoo News

Our 2025 analysis had a slightly different methodology, collecting only the top 10 stories, but over a period of 14 consecutive days, resulting in a similar number of articles analyzed to method two in 2022.

Compared to method two, in 2025 Yahoo! News increased their articles collected from the right from 1% to 2%, Center articles increased 22%, and articles on the left decreased 2%, but were still the majority of articles. The number of Not Rated articles decreased from 32% to 12% as AllSides expanded its ratings, which could have contributed to some of the shifts.

When comparing top outlets, Yahoo! News still prominently curates from the Associated Press. It increased curation from Reuters, and added outlets like CNN, Good Morning America, and ABC News to its top outlets list. The New York Times, Daily Beast, HuffPost, and Washington Post all dropped off the list.

Overall, Yahoo! News' bias has remained relatively consistent between 2022 and 2025, according to AllSides analyses.

# Background on Yahoo! News

[Yahoo! News](#) is a news website that features aggregated content from various sources. It also produces original reporting.

As of July 2025, the AllSides Media Bias Rating for Yahoo! News was Lean Left (-1.95). AllSides has previously conducted Editorial Reviews, Blind Bias Surveys, and an aggregator analysis of Yahoo! News. Following the June report AllSides changed Yahoo! News' bias rating to Lean Left (-1.55).

In 2018, Yahoo! News was rated Left, before being moved to Lean Left following a 2019 Editorial Review. In 2021, a Blind Bias Survey of Yahoo! News' original content also returned a Lean Left rating. Our last aggregator analysis of Yahoo! News was in 2022, and resulted in a -1.95 Lean Left rating.

Yahoo! News is a popular news source in the United States, with an estimated [169.3 million visits](#) per month, as of June 2025.

# About AllSides™

AllSides™ is a media solutions company that strengthens our democratic society with [balanced news](#), [media bias ratings](#), [diverse perspectives](#), and [real conversation](#).

AllSides' balanced newsfeed provides news from the left, center, and right and is powered by over 2,400 AllSides Media Bias Ratings™ that reveal the average judgment of Americans, not one elite group. AllSides serves news consumers at AllSides.com and provides patented technologies, tools and services — including media bias audits — to media companies, nonprofits, businesses and other organizations. Visit [AllSides.com/services](#).

AllSides provides a platform for a diverse range of perspectives on current events and political issues. This includes presenting news and analysis from multiple viewpoints, including those that may not be represented in mainstream media. AllSides aims to foster greater understanding and dialogue by providing a space where people can learn about and engage with perspectives that differ from their own.

AllSides' mission is to free people from filter bubbles so they can better understand the world — and each other. AllSides [employs](#) a multipartisan team of editors who review and curate news articles from a variety of sources. The articles are then presented side-by-side in a balanced newsfeed that reveals the political perspective of the source.

Since 2012, AllSides has been analyzing the media bias of news outlets using its patented and proprietary systems, providing over 2,400 [media bias ratings](#) for news sources, writers, fact-check organizations, and think tanks. AllSides believes everyone is biased, and that's okay. But hidden bias can manipulate, mislead, and divide us.

AllSides provides Media Bias Audits to news companies interested in discovering their bias and providing more objective, balanced news. Its patented and proprietary system reveals how average Americans perceive the political bias of news reporting, and its multipartisan panel provides recommendations for achieving more balanced news.

In addition to providing news and analysis, AllSides also offers tools and resources for individuals, schools, and organizations interested in promoting media literacy and understanding. This includes the [AllSides Media Bias Chart™](#), [AllSides for Schools](#), [Red Blue Translator](#), and other [tools](#) and [services](#).

## About AllSides Media Bias Ratings™

AllSides empowers you to understand the role media bias plays in the news and information you consume. [AllSides Media Bias Ratings™](#) and the [AllSides Media Bias Chart™](#) help make news bias transparent, allowing you to easily identify different perspectives and political leanings so you can get the full picture and think for yourself.

AllSides Media Bias Ratings™ are based on a scientific, multipartisan analysis, and are meant to reflect the average view of the American public. In other words, they are meant to reflect the average view of people across the political spectrum, not one individual or group.

AllSides believes there is no such thing as [unbiased news](#), and that concealed bias can mislead and divide us. The best approach is to acknowledge and balance this bias, so that people can consider multiple viewpoints and gain a more comprehensive understanding of the world around them.

AllSides assigns a rating of [Left](#), [Lean Left](#), [Center](#), [Lean Right](#), or [Right](#) to each media outlet or writer, as well as a numerical rating using the [AllSides Media Bias Meter™](#), which provides more nuance in each category.

The AllSides patented bias detection and display technology is powered by a combination of the ‘wisdom-of-the-crowd’ technology and statistical research and methodologies. The system utilizes multiple methods for calculating media bias, and combines them for the best results. For each source, the methodology may include:

- **Blind Bias Surveys** — A survey that asks respondents to rate the media bias of a news outlet on a left-right scale without knowing the news source or author they are reviewing. AllSides normalizes these data based on respondent ideology to ensure that the audience reflects the social and political diversity of the nation.
- **Editorial Reviews** — A multipartisan panel conducts in-depth reviews of a media outlet. The Editorial Review Panel includes people from across the political spectrum. During this process, each reviewer independently evaluates and suggests a rating for the source. Then, the group discusses individual findings, shares impressions, and comes to an agreement on the result.
- **Third Party Data** — When available and relevant, data that is conducted by a transparent, credible source may inform AllSides Media Bias Ratings™. AllSides always notes which third-party analyses it has taken to account on the source page for any outlet.
- **Community Feedback** — Visitors to AllSides.com can vote on the rating for any outlet. This feedback does not determine our ratings, but may trigger a deeper review.
- **Independent Reviews** — An AllSides reviewer assesses content and comes to a general conclusion on a source’s bias. This is AllSides’ lowest level of analysis, usually undertaken to give initial, low-confidence ratings.

For more information about how AllSides rated media bias, visit its [media bias rating methods page](#).
