Overview

A 2023 AllSides analysis of [Google News](#) found Google News has a Lean Left bias. Google News displayed articles from media sources with a Lean Left AllSides Media Bias Rating™ far more often than sources with a Left, Center, Lean Right, or Right bias.

Overall, top news sources that appeared on Google News over a two-week period in 2023 were 4% Left-rated, 59% Lean Left-rated, 16% Center-rated, 1% Lean Right-rated, 5% Right-rated, and 15% not rated by AllSides.

AllSides Media Bias Ratings™ of Top Sources Curated on Google News' Homepage

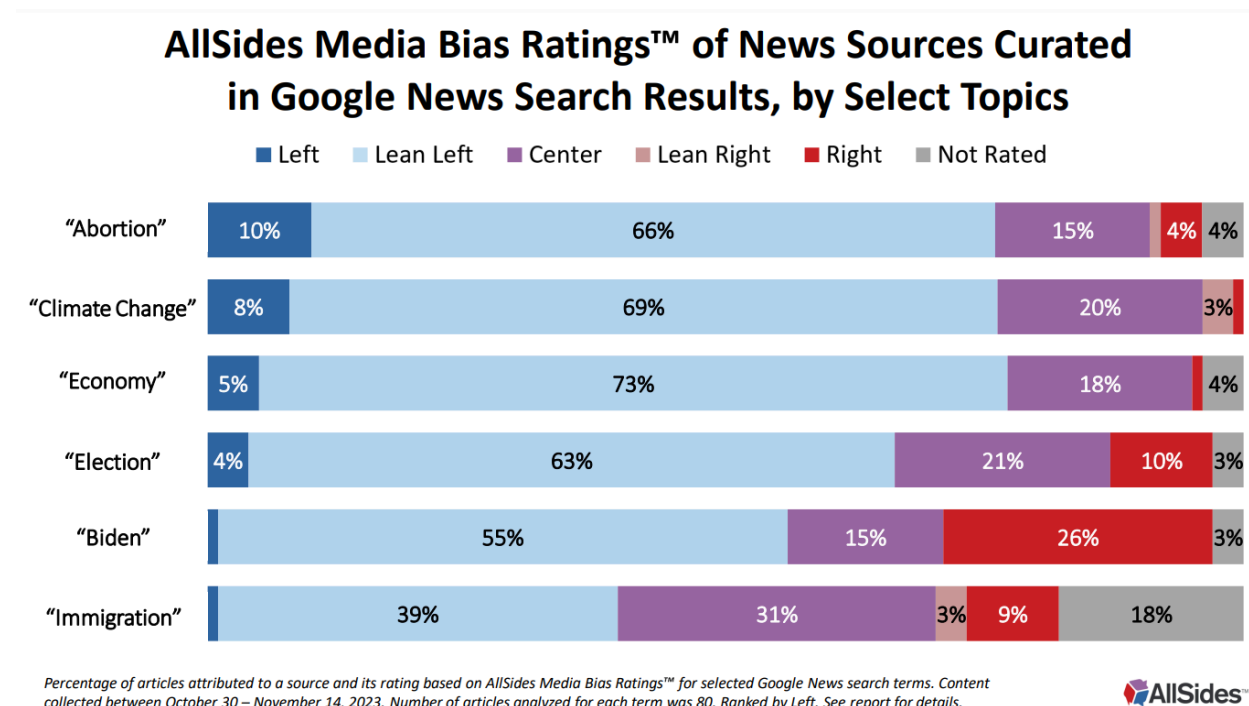

Percentage of articles, out of 494, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 30 – November 14, 2023. See report for details.

The left-leaning slant of Google News is consistent with AllSides' [2022](#) and [2019 Google News analyses](#). While the 2023 homepage results were similar to the 2022 AllSides analysis, the search results were less left-leaning in 2023 than in 2022. (See [2022 vs. 2023 comparative analysis section](#)).

AllSides also analyzed search results for the terms “Abortion,” “Climate Change,” “Economy,” “Election,” “Biden,” and “Immigration.” All of the terms returned left-leaning results. “Abortion,”

“*Climate Change*,” and “*Economy*” returned the most left-leaning results, while “*Biden*” and “*immigration*” returned results that were closer to balanced.

The 2023 analysis resulted in AllSides reinforcing Google News’s Lean Left AllSides Media Bias Rating™.

The 2023 AllSides Google News Analysis analyzed 494 Google News homepage articles and 480 articles from Google News’ search results. The analysis involved cross-referencing articles curated on news.google.com with the AllSides Media Bias Rating™ for each source. AllSides Media Bias Ratings™ are determined by multiple methodologies that ensure ratings reflect the average judgment of all Americans. The ratings are driven by a balance of input from experts and average Americans across the nation and across the political spectrum.

This report provides details about the Google News bias analysis methodology, results, and how AllSides avoided bias on the part of the researchers.

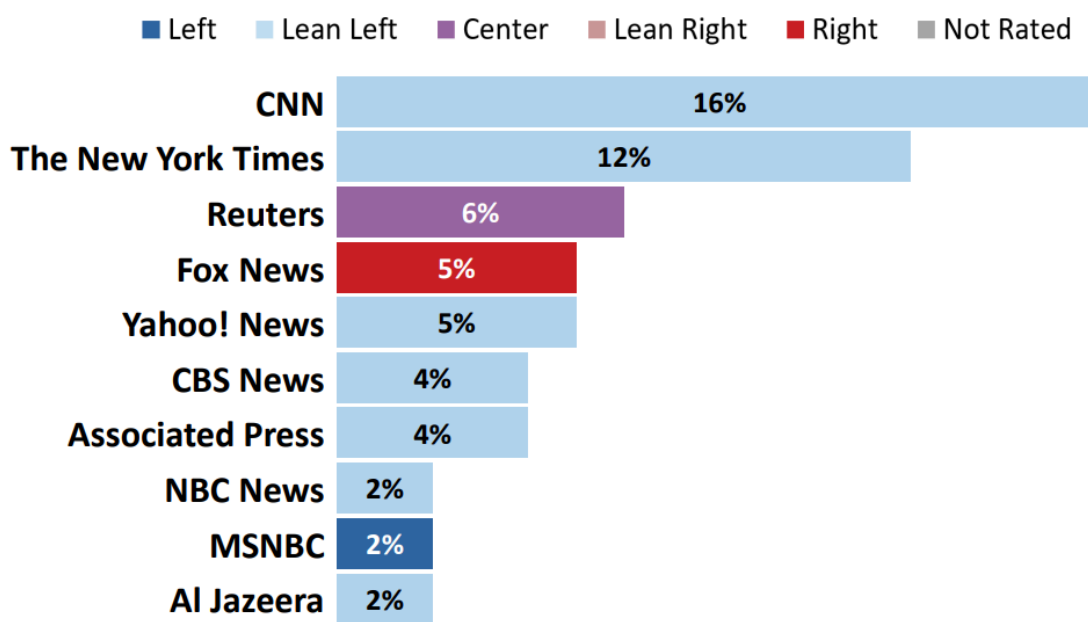

Note that this analysis does not investigate whether the political leanings or biases displayed by Google News are intentional. While it is possible that the political leanings are overtly or covertly intentional, it is also possible they are accidental. These leanings could be a fair reflection of content available online, perspectives of the average online user, or the greater effectiveness one political side has in promoting its perspectives in news media. Whether Google News should provide a broader or more balanced diversity of perspectives, and whether that would support or hinder a healthier democratic society, is a philosophical or ethical question beyond the bounds of this analysis.

In-Depth Findings

The AllSides analysis found Google News curated sources on the left far more than sources on in the center or on the right.

Out of the 494 homepage articles analyzed, the top sources that appeared were [CNN \(Lean Left\)](#), [The New York Times \(Lean Left\)](#), [Reuters \(Center\)](#), [Fox News \(Right\)](#), and [Yahoo! News \(Lean Left\)](#). All of the top 10 sources curated were rated Lean Left or Left, other than Reuters and Fox News.

Top News Sources Curated on Google News' Homepage, with Corresponding AllSides Media Bias Rating™

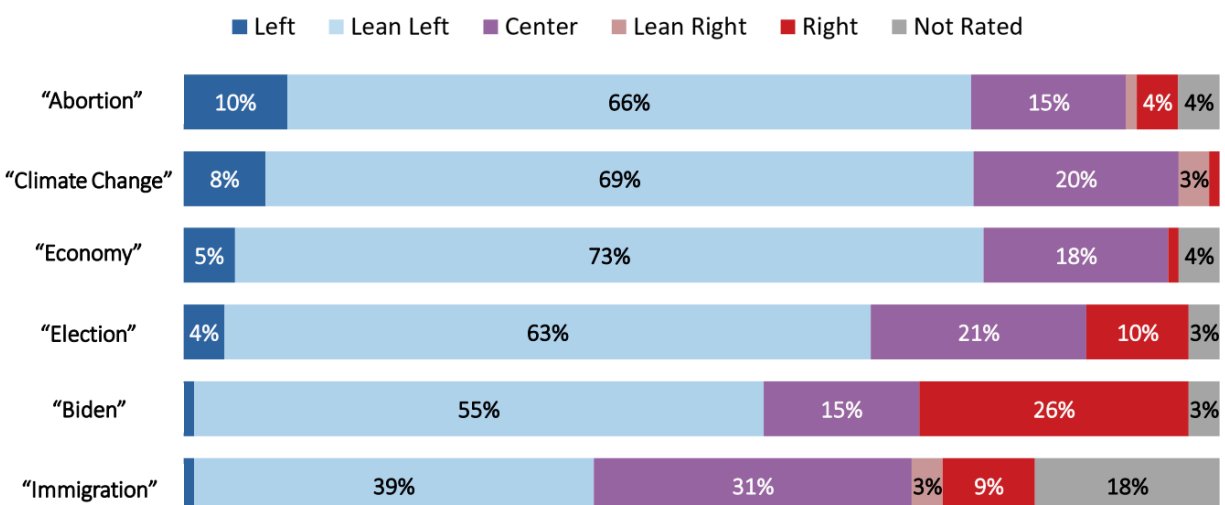

Percentage of articles, out of 494, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 30 – November 14, 2023. See report for details.

Search Terms

The search terms analyzed were “*Abortion*,” “*Climate Change*,” “*Economy*,” “*Election*,” “*Biden*,” and “*Immigration*.” For each term, Lean Left-rated outlets accounted for over half of the results, excluding the term “*Immigration*.” Outlets on the right never accounted for more than 12% of the results, except for the term “*Biden*.”

AllSides Media Bias Ratings™ of News Sources Curated in Google News Search Results, by Select Topics

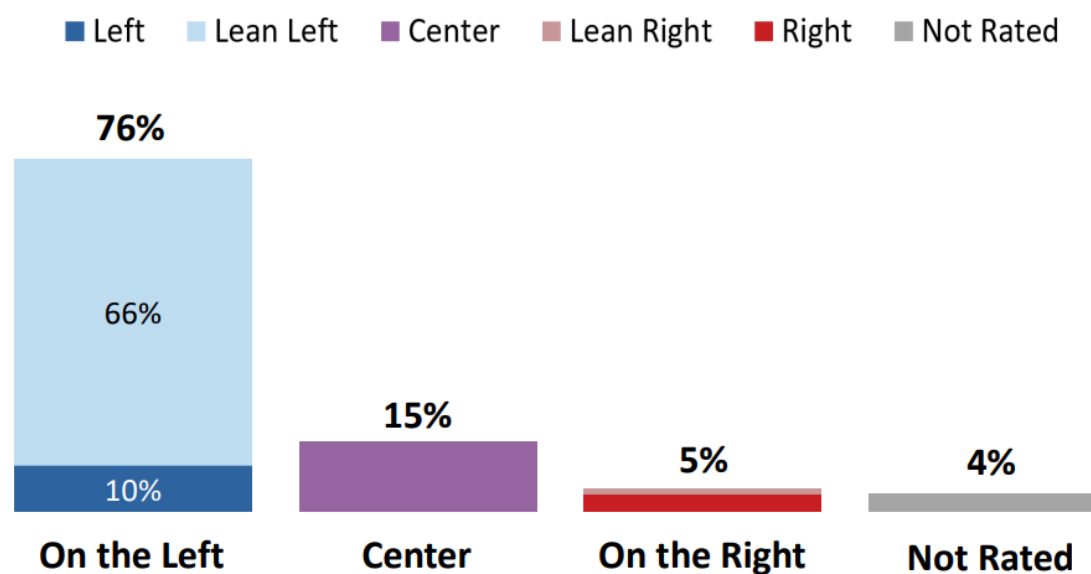

Percentage of articles attributed to a source and its rating based on AllSides Media Bias Ratings™ for selected Google News search terms. Content collected between October 30 – November 14, 2023. Number of articles analyzed for each term was 80. Ranked by Left. See report for details.

Search Term: Abortion

The search term “*abortion*” resulted in 10% Left-rated outlets, 66% Lean Left-rated outlets, 15% Center-rated outlets, 1% Lean Right-rated outlets, 4% Right-rated outlets, and 4% not rated by AllSides.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Abortion”

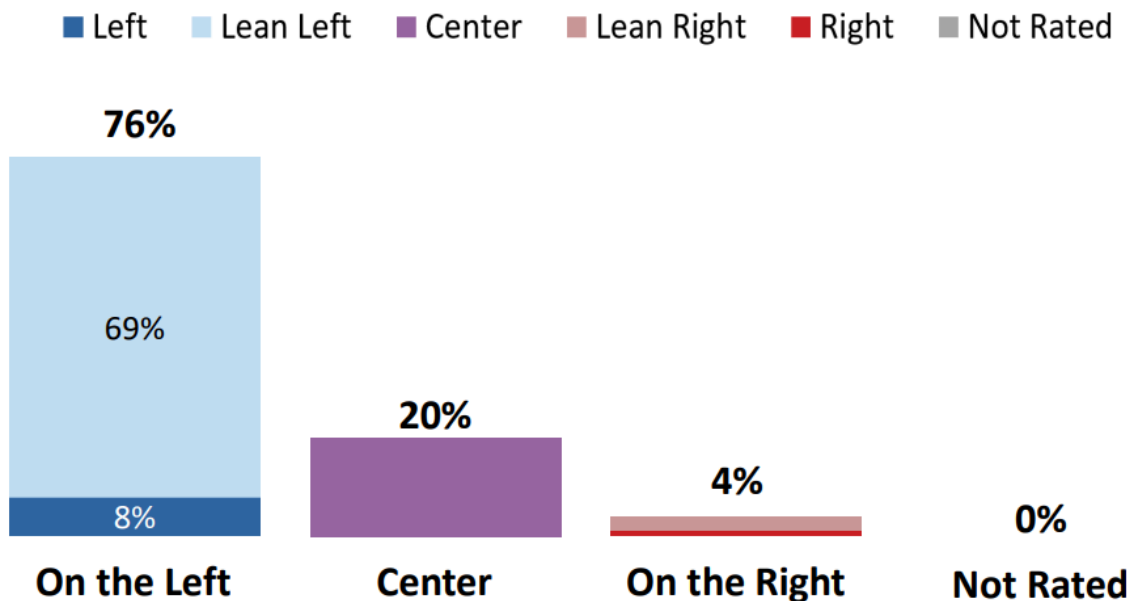

Percentage of articles, out of 80, attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Abortion.” See report for details.

Search Term: Climate Change

The search term “*Climate Change*” resulted in 8% Left-rated outlets, 69% Lean Left-rated outlets, 20% Center-rated outlets, 3% Lean Right-rated outlets, and 1% Right-rated outlets.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Climate Change”

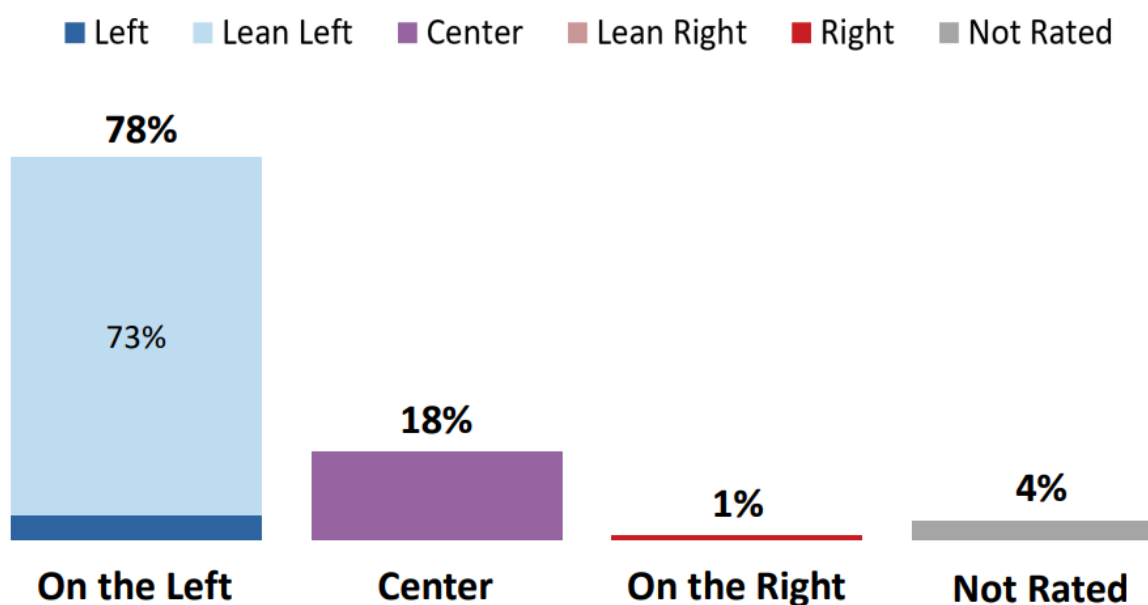

Percentage of articles, out of 80, attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Climate Change.” See report for details.

Search Term: Economy

The search term “*Economy*” resulted in 5% Left-rated outlets, 73% Lean Left-rated outlets, 18% Center-rated outlets, 0% Lean Right-rated outlets, 1% Right-rated outlets and 4% not rated by AllSides.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Economy”

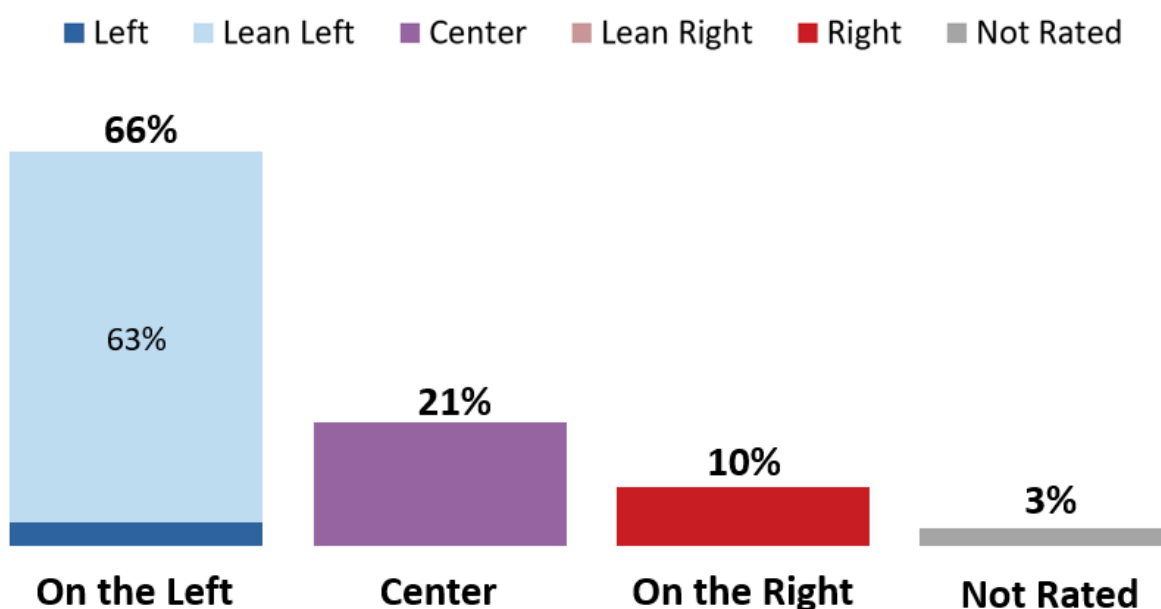

Percentage of articles, out of 80, attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Economy.” See report for details.

Search Term: Election

The search term “*Election*” resulted in 4% Left-rated outlets, 63% Lean Left-rated outlets, 21% Center-rated outlets, 0% Lean Right-rated outlets, 10% Right-rated outlets, and 3% not rated by AllSides.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Election”

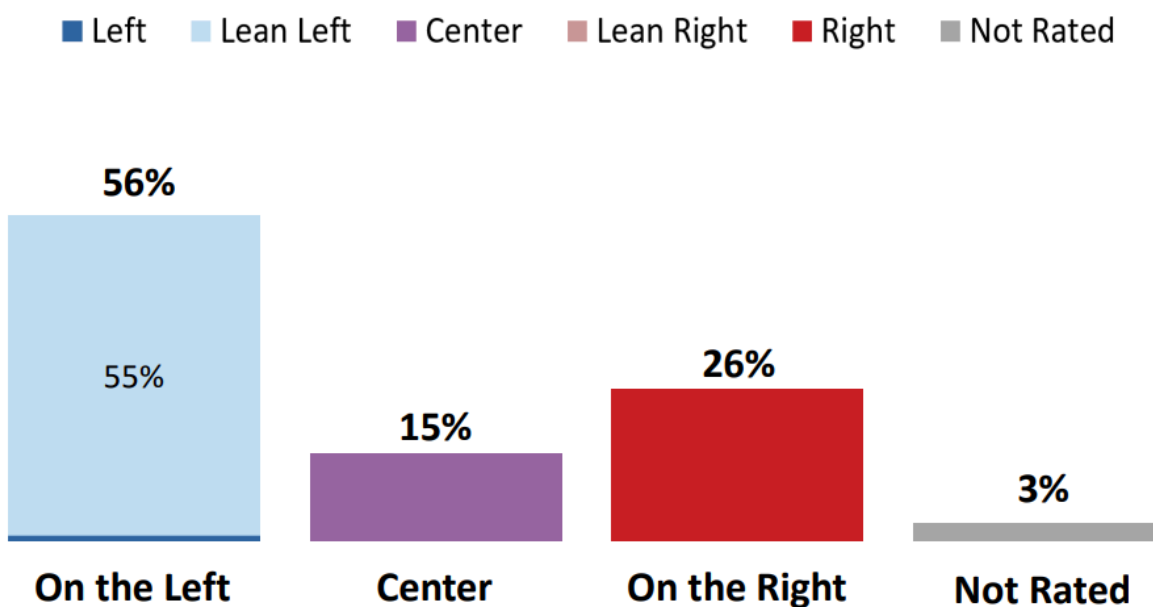

Percentage of articles, out of 80, attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Election.” See report for details.

Search Term: Biden

The search term “*Biden*” resulted in 1% Left-rated outlets, 55% Lean Left-rated outlets, 15% Center-rated outlets, 0% Lean Right-rated outlets, 26% Right-rated outlets, and 3% not rated by AllSides.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Biden”

Percentage of articles, out of 80, attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Biden.” See report for details.

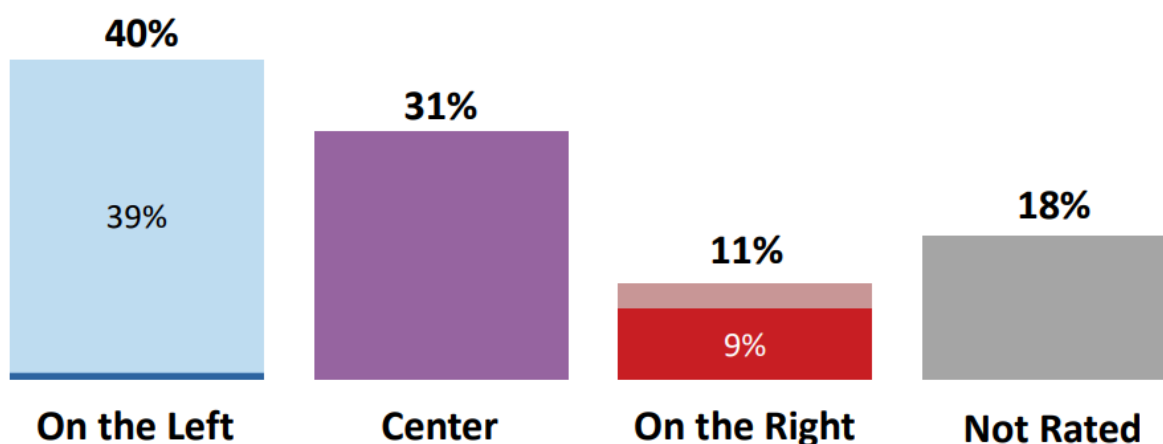

Search Term: Immigration

The search term “*Immigration*” resulted in 1% Left-rated outlets, 39% Lean Left-rated outlets, 31% Center-rated outlets, 3% Lean Right-rated outlets, 9% Right-rated outlets, and 18% not rated by AllSides.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Immigration”

■ Left ■ Lean Left ■ Center ■ Lean Right ■ Right ■ Not Rated

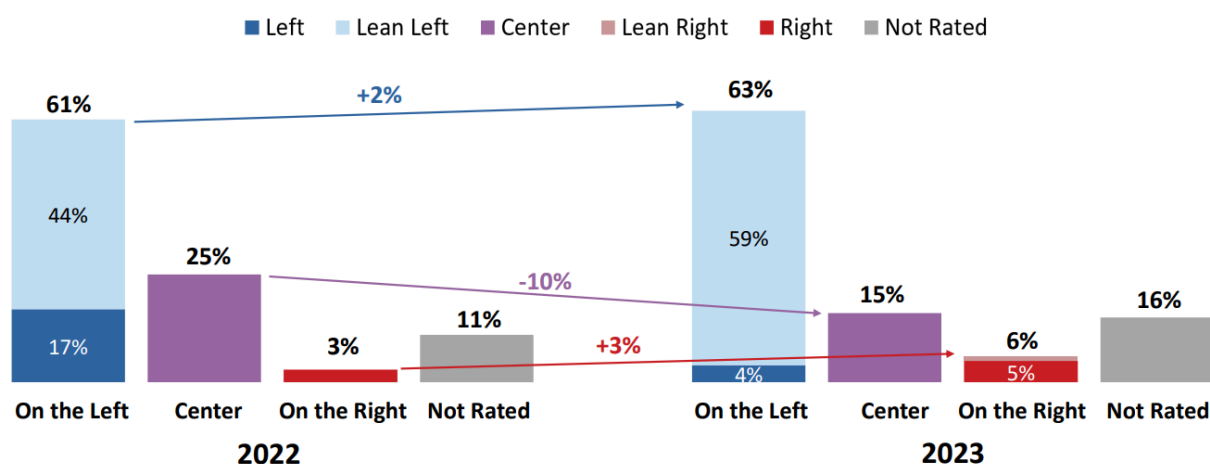

Percentage of articles, out of 80, attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Immigration.” See report for details.

2023 vs. 2022 Google News Comparative Analysis

In AllSides [2022 Google analysis](#), 17% of outlets on the homepage were Left-rated, 44% were Lean Left-rated, 25% were Center-rated, 3% were Right-rated, and 11% were not rated. Compared to 2023, there was about a 13% decrease in Left-rated outlets and a 16% increase in Lean Left-rated outlets (+2% overall on the left). There was a 10% decrease in Center-rated outlets. There was a 1% increase in Lean Right-rated outlets and a 2% increase in Right-rated outlets (+3% overall on the right). There was a 5% increase in outlets not rated by AllSides. **From 2022 to 2023, both right-rated outlets and left-rated outlets increased almost in equal measure, while center outlets decreased, leading to a consistent left-leaning bias on the part of Google News.**

AllSides Media Bias Ratings™ of Top Sources Curated on Google News' Homepage, 2022 vs. 2023

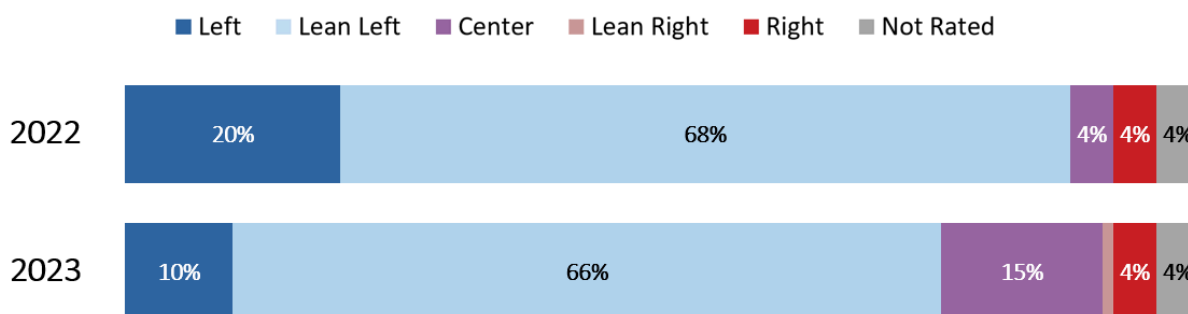

Percentage of articles attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 31 – November 4, 2022 for the 2022 analysis, and October 30 – November 14, 2023 for the 2023 analysis. See report for details.

For the 2022 review (which was conducted from Oct 31-Nov 4, 2022), AllSides analyzed the search terms “Abortion,” “Crime,” “Economy,” “Election,” “Biden,” and “Trump.” In 2023, we looked at the search terms “Abortion,” “Economy,” “Election,” and “Biden.” On these pages, there were more balanced results — though still left-leaning — in 2023. (Note: both sets of search terms were selected based on top issues of Americans in each respective year).

“Abortion” displayed a 10% decrease in Left-rated outlets, 2% decrease in Lean Left-rated outlets, 11% increase in Center-rated outlets and a 1% increase in Lean-Right rated outlets. The amount of Right-rated and not rated outlets did not change between 2022 and 2023.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Abortion” – 2022 vs. 2023

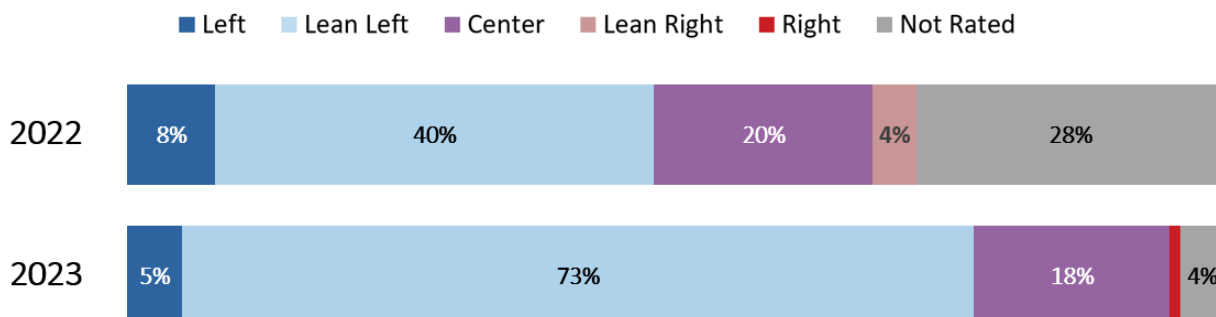

Percentage of articles attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Abortion.”
Content collected between October 31 – November 4, 2022 for the 2022 analysis, and October 30 – November 14, 2023 for the 2023 analysis.
See report for details.

“Economy” displayed a 3% decrease in Left-rated outlets, a 33% increase in Lean Left-rated outlets, a 2% decrease in Center-rated outlets, a 4% decrease in Lean Right-rated outlets, and a 1% increase in Right-rated outlets. There was a 24% decrease in Not Rated outlets.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Economy” – 2022 vs. 2023

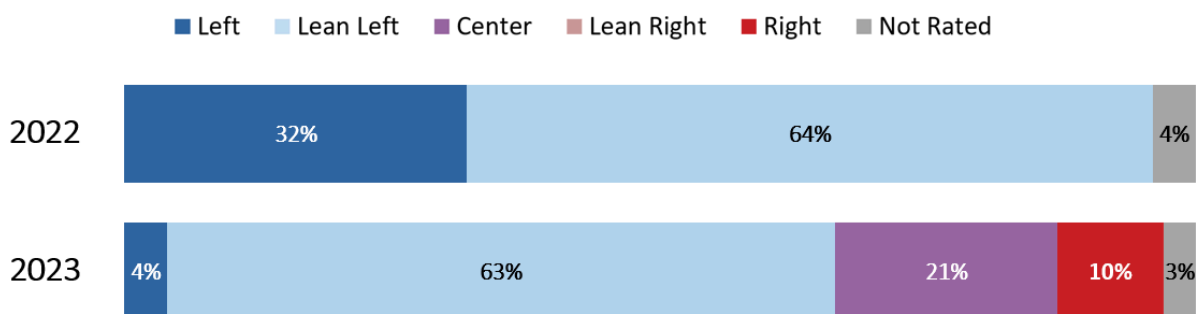

Percentage of articles attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Economy.”
Content collected between October 31 – November 4, 2022 for the 2022 analysis, and October 30 – November 14, 2023 for the 2023 analysis.
See report for details.

“Election” displayed a 28% decrease in Left-rated outlets, a 1% decrease in Lean Left-rated outlets, a 21% increase in Center-rated outlets, a 10% increase in Right-rated outlets, and a 1% decrease in not rated outlets.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Election” – 2022 vs. 2023

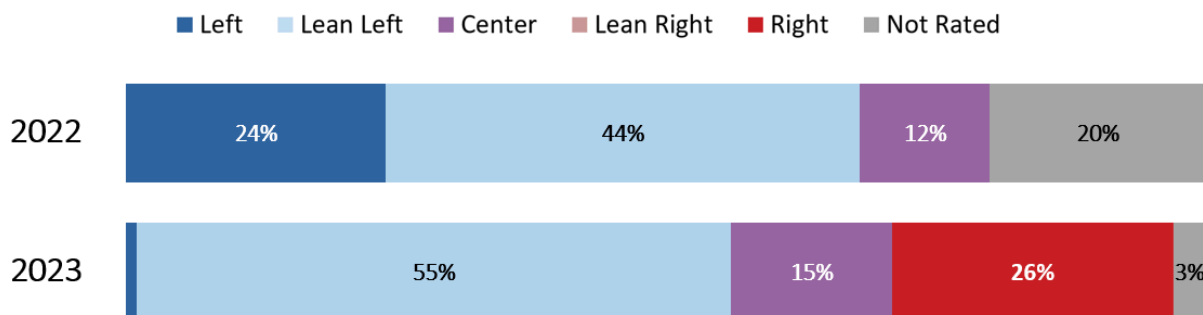

Percentage of articles attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Election.” Content collected between October 31 – November 4, 2022 for the 2022 analysis, and October 30 – November 14, 2023 for the 2023 analysis. See report for details.

“Biden” displayed a 23% decrease in Left-rated outlets, an 11% increase in Lean Left-rated outlets, a 3% increase in Center-rated outlets, a 26% increase in Right-rated outlets, and a 17% decrease in not rated outlets.

AllSides Media Bias Ratings™ of Sources Curated by Google News Search Term: “Biden” – 2022 vs. 2023

Percentage of articles attributed to a source and its rating based on AllSides Media Bias Ratings™ for the Google News Search term “Biden.” Content collected between October 31 – November 4, 2022 for the 2022 analysis, and October 30 – November 14, 2023 for the 2023 analysis. See report for details.

In early 2023, Google responded to the 2022 AllSides Google bias analysis, [saying](#), “This study’s methodology is deeply flawed. It cherry-picked a few topics and ran for a very brief period of time, presenting a misleading picture of Google News.” The 2023 results corresponded with the 2022 results, demonstrating that Google News’ bias was relatively consistent year-over-year.

Background on Google News

As of November 2023, the [AllSides Media Bias Rating for Google News](#) was [Lean Left](#), which means that the aggregator tends to favor perspectives from those on the left – in this case, liberal media outlets. This rating was based on three AllSides analyses of Google News, conducted in [2018](#), [2019](#) and [2022](#), all of which found Lean Left bias in Google News, as well as a 2019 Northwestern University audit that found just 20 news sources – mostly on the left – account for more than half of article impressions on Google’s “Top Stories” section.

As of January 15, 2024, a total of 2,310 people have voted on the AllSides Media Bias Rating for Google News; roughly 60% agreed with the rating of Lean Left. (Community votes are raw, unnormalized data. AllSides does not incorporate community votes into ratings whatsoever).

To view AllSides’ source page for Google News, [click here](#).

The [2022 AllSides bias analysis](#) of Google News found a Lean Left bias based on homepage sources and search term results.

The 2018 AllSides [research report](#) on Google News and Google News search results found the aggregator is biased toward Left and Left-leaning news sources.

The two audits conducted in 2019 assessed results from Google’s “Top Stories” section. One, a Northwestern University [audit](#), found that Google’s “Top Stories” section, which often appears at the very top of Google search results, favors just 20 media outlets, most rated Lean Left by AllSides. Another 2019 AllSides [audit](#) found Google’s “Top Stories” section heavily favored liberal news outlets when searching for terms related to two mass shootings.

According to the 2014 Pew Research Study, [Where News Audiences Fit on the Political Spectrum](#), 37% Google News readers held political values to the political left or left-of-center. 20% of Google News’s audience was right or right-of-center, and roughly 43% of Google News’ audience was considered mixed or center.

Purpose & Methodology

AllSides conducted this comprehensive media bias analysis of Google News to determine the political bias of SmartNews based on the media outlets it curates.

Content Collection

AllSides collected the top 10 news articles under “Top Stories” as well as the top three articles under Google’s “U.S.” and “World” sections at 10 am and 5 pm EST every day between October 30 - November 14, 2023 to complete the homepage section of the analysis. For select search terms, AllSides collected the top five articles from each search term at 10 am EST each day from October 30 - November 14, 2023.

How AllSides Made This Analysis as Objective as Possible

AllSides only took the bias of the overall media outlet into account – not the content of the article itself. For example, any article curated from [The New York Times \(Lean Left\)](#) was considered Lean Left, reflecting the outlet’s overall AllSides Media Bias Rating at the time of the analysis. AllSides Media Bias Ratings™ reflect the average judgment of people across the political spectrum, not one individual or group. AllSides’ media bias rating methodology is based on multiple methods, including Blind Bias Surveys of Americans across the political spectrum and expert panel reviews by a multipartisan group. This prevents one elite group or individual from having a disproportionate impact on the ratings.

About AllSides™

AllSides™ is a media solutions company that strengthens our democratic society with [balanced news](#), [media bias ratings](#), [diverse perspectives](#), and [real conversation](#).

AllSides' balanced newsfeed provides news from the left, center, and right and is powered by over 1,400 AllSides Media Bias Ratings™ that reveal the average judgment of Americans, not one elite group. AllSides serves news consumers at AllSides.com and provides patented technologies, tools and services — including media bias audits — to media companies, nonprofits, businesses and other organizations. Visit [AllSides.com/services](#).

AllSides provides a platform for a diverse range of perspectives on current events and political issues. This includes presenting news and analysis from multiple viewpoints, including those that may not be represented in mainstream media. AllSides aims to foster greater understanding and dialogue by providing a space where people can learn about and engage with perspectives that differ from their own.

AllSides' mission is to free people from filter bubbles so they can better understand the world — and each other. AllSides [employs](#) a multipartisan team of editors who review and curate news articles from a variety of sources. The articles are then presented side-by-side in a balanced newsfeed that reveals the political perspective of the source.

Since 2012, AllSides has been analyzing the media bias of news outlets using its patented and proprietary systems, providing over 1,400 [media bias ratings](#) for news sources, writers, fact-check organizations, and think tanks. AllSides believes everyone is biased, and that's okay. But hidden bias can manipulate, mislead, and divide us.

AllSides provides Media Bias Audits to news companies interested in discovering their bias and providing more objective, balanced news. Its patented and proprietary system reveals how average Americans perceive the political bias of news reporting, and its multipartisan panel provides recommendations for achieving more balanced news.

In addition to providing news and analysis, AllSides also offers tools and resources for individuals, schools, and organizations interested in promoting media literacy and understanding. This includes the [AllSides Media Bias Chart™](#), [AllSides for Schools](#), [Red Blue Translator](#), and other [tools](#) and [services](#).

About AllSides Media Bias Ratings™

AllSides empowers you to understand the role media bias plays in the news and information you consume. [AllSides Media Bias Ratings™](#) and the [AllSides Media Bias Chart™](#) help make news bias transparent, allowing you to easily identify different perspectives and political leanings so you can get the full picture and think for yourself.

AllSides Media Bias Ratings™ are based on a scientific, multipartisan analysis, and are meant to reflect the average view of the American public. In other words, they are meant to reflect the average view of people across the political spectrum, not one individual or group.

AllSides believes there is no such thing as [unbiased news](#), and that concealed bias can mislead and divide us. The best approach is to acknowledge and balance this bias, so that people can consider multiple viewpoints and gain a more comprehensive understanding of the world around them.

AllSides assigns a rating of [Left](#), [Lean Left](#), [Center](#), [Lean Right](#), or [Right](#) to each media outlet or writer, as well as a numerical rating using the [AllSides Media Bias Meter™](#), which provides more nuance in each category.

The AllSides patented bias detection and display technology is powered by a combination of the ‘wisdom-of-the-crowd’ technology and statistical research and methodologies. The system utilizes multiple methods for calculating media bias, and combines them for the best results. For each source, the methodology may include:

- **Blind Bias Surveys** — A survey that asks respondents to rate the media bias of a news outlet on a left-right scale without knowing the news source or author they are reviewing. AllSides normalizes these data based on respondent ideology to ensure that the audience reflects the social and political diversity of the nation.
- **Editorial Reviews** — A multipartisan panel conducts in-depth reviews of a media outlet. The Editorial Review Panel includes people from across the political spectrum. During this process, each reviewer independently evaluates and suggests a rating for the source. Then, the group discusses individual findings, shares impressions, and comes to an agreement on the result.
- **Third Party Data** — When available and relevant, data that is conducted by a transparent, credible source may inform AllSides Media Bias Ratings™. AllSides always notes which third-party analyses it has taken to account on the source page for any outlet.
- **Community Feedback** — Visitors to AllSides.com can vote on the rating for any outlet. This feedback does not determine our ratings, but may trigger a deeper review.
- **Independent Reviews** — An AllSides reviewer assesses content and comes to a general conclusion on a source’s bias. This is AllSides’ lowest level of analysis, usually undertaken to give initial, low-confidence ratings.

For more information about how AllSides rated media bias, visit its [media bias rating methods page](#).
