Overview

An AllSides bias analysis of news aggregator SmartNews found a Lean Left bias. SmartNews displayed far more articles from sources with a AllSides Media Bias Rating™ of Lean Left and Center than those with a Lean Right or Right rating.

Overall, the bias of the top news sources that appeared on SmartNews over a two-week period in 2023 were 5% Left-rated, 51% Lean Left-rated, 32% Center-rated, 1% Lean Right-rated, 1% Right-rated, and 11% not rated by AllSides.

AllSides Media Bias Ratings™ of Sources Curated by SmartNews

Percentage of articles, out of 497, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 24 – November 6, 2023. See report for details.

AllSides analyzed news sources featured in the “U.S.,” “Politics,” “World,” and “SmartTake” sections of the SmartNews mobile app over a two-week period, from Oct. 24 to Nov. 6, 2023.

In the “Politics” section of the app, 70% of sources were on the left, 11% were in the center, 0% on the right, and 19% were not rated.

In the “U.S.” section of the SmartNews app, 30% of sources were on the left, 59% in the center, 1% on the right, and 10% not rated.

In the “World” section of the app, 1% of sources were on the left, 99% were in the center, and 0% were on the right.

The “SmartTake” section displayed 71% of sources on the left, 14% in the center, 3% on the right and 11% not rated.

The analysis resulted in AllSides issuing a Lean Left AllSides Media Bias Rating™ for SmartNews.

The 2023 AllSides SmartNews Bias Analysis analyzed 497 total articles. The analysis involved cross-referencing articles curated on the SmartNews app with the AllSides Media Bias Rating™ for each source. AllSides Media Bias Ratings™ are determined by multiple methodologies that ensure ratings reflect the average judgment of all Americans. The ratings are driven by a balance of input from experts and average Americans across the nation and across the political spectrum.

This report provides details about the SmartNews bias analysis methodology, results, and how AllSides avoided bias on the part of the researchers.

Note that this analysis does not investigate whether the political leanings or biases displayed by SmartNews are intentional. While it is possible that the political leanings are overtly or covertly intentional, it is also possible they are accidental. These leanings could be a fair reflection of content available online, perspectives of the average online user, or the greater effectiveness one political side has in promoting its perspectives in news media. Whether SmartNews should provide a broader or more balanced diversity of perspectives, and whether that would support or hinder a healthier democratic society, is a philosophical or ethical question beyond the bounds of this analysis.

In-Depth Findings

The AllSides analysis found SmartNews curated sources on the left and center far more than sources on the right.

Sources Curated on SmartNews

Out of 497 total articles analyzed from SmartNews' "Politics", "SmartTake", "U.S.", and "World" sections, the five news sources that appeared most often were [ABC News \(Lean Left\)](#), [USA Today \(Lean Left\)](#), [DW \(Center\)](#), [Associated Press \(Lean Left\)](#), and [Evening Standard \(Center\)](#). No sources on the right were among the top 10 outlets displayed on SmartNews' sections.

Top News Sources Curated by SmartNews, with Corresponding AllSides Media Bias Rating™

Percentage of articles, out of 497, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 24 – November 6, 2023. See report for details.

“Politics” Section

SmartNews' "Politics" section featured **16% Left-rated outlets, 54% Lean Left-rated outlets, 11% Center-rated outlets, 0% Lean Right-rated outlets, and 0% Right-rated outlets.** Nineteen percent were not rated by AllSides. A total of 70 articles were analyzed.

AllSides Media Bias Ratings™ of Sources Featured in SmartNews’ “Politics” Section

Percentage of articles, out of 70, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 24 – November 6, 2023. See report for details.

“SmartTake” Section

SmartNews’ “SmartTake” section featured **3% Left-rated outlets, 68% Lean Left-rated outlets, 14% Center-rated outlets, 1% Lean Right-rated outlets, and 2% Right-rated outlets**. Eleven percent were outlets not rated by AllSides. A total of 287 articles were analyzed.

AllSides Media Bias Ratings™ of Sources Featured in SmartNews' "SmartTake" Section

Percentage of articles, out of 287, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 24 – November 6, 2023. See report for details.

"U.S." Section

SmartNews' "U.S." section featured **1% Left-rated outlets, 29% Lean Left-rated outlets, 59% Center-rated outlets, 0% Lean Right-rated outlets, and 1% Right-rated outlets.** Ten percent were outlets not rated by AllSides. A total of 70 articles were analyzed; many of them local outlets.

AllSides Media Bias Ratings™ of Sources Featured in SmartNews' "U.S." Section

Percentage of articles, out of 70, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 24 – November 6, 2023. See report for details.

“World” Section

SmartNews’ “World” section featured **0% Left-rated outlets, 1% Lean Left-rated outlets, 99% Center-rated outlets, 0% Lean Right-rated outlets, and 0% Right-rated outlets**. A total of 70 articles were analyzed.

Note, the only sources that appeared in the World section were DW, Evening Standard, [BBC News \(Center\)](#), and—once—[Politico \(Lean Left\)](#). DW is a German outlet, while Evening Standard and BBC News are both English.

AllSides Media Bias Ratings™ of Sources Featured in SmartNews’ “World” Section

Percentage of articles, out of 70, attributed to a source and its rating based on AllSides Media Bias Ratings™. Content collected between October 24 – November 6, 2023. See report for details.

Background on SmartNews

[SmartNews](#) is a mobile application available in the [App Store](#) and [Google Play store](#) that aggregates news sources into a feed for users. The company was established in 2012 in Japan, and became available in the United States in 2014.

SmartNews has a tabbed interface, which allows users to quickly swipe between various topics, such as Sports, Tech, Politics, Entertainment, World, and more.

According to its [About page](#), the company states, “The amount of information all of us can read everyday [sic] is exploding. It’s impossible to read it all, and hard to determine how reliable it is. In this era of information overload, SmartNews strives to deliver quality information for our users through advanced algorithms and simple user interfaces... News should be trustworthy. Our algorithms evaluate millions of articles, signals and human interactions to deliver the top 0.01% of stories that matter most, right now.”

“News From All Sides” Feature

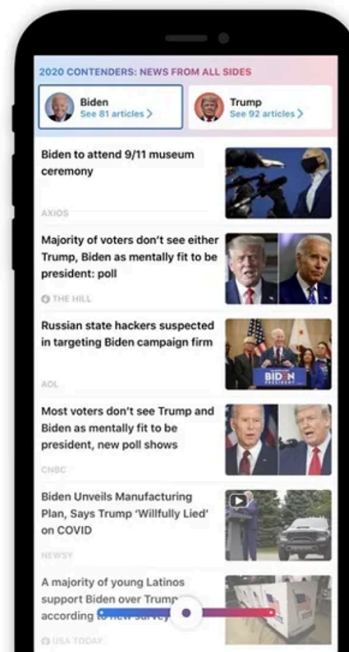

Under the Politics tab of SmartNews, there is a feature called “News From All Sides” (*Important Note: this feature is not connected in any way with AllSides Technologies, Inc. – the creator of this report*).

“News From All Sides” allows users to see articles about a specific topic or news story sorted in three groups, from liberal to conservative. The user can then slide between the different sources. As TechCrunch [described](#) the feature, it “aims to provide more transparency about news algorithms, which have been blamed for exacerbating political polarization.”

In the SmartNews application, it describes the feature: “As you slide from left to right, our algorithm will serve up a mix of stories with different perspectives.”

At the time of this report, it is unclear to AllSides how the algorithm works or how outlets are selected to appear in the left, center, or right sections of the feature.

For the purposes of this report, the “News From All Sides” feature of SmartNews was not included.

Purpose & Methodology

AllSides conducted this comprehensive media bias analysis of SmartNews to determine the political bias of SmartNews based on the media outlets it curates.

Content Collection

In the analysis, AllSides collected the top five stories from the “U.S.,” “World,” and “Politics” sections once each day over a two-week period from October 24 to November 6, 2023. In addition, we pulled all of the stories from the “SmartTake” section over the same two-week period. The number of stories in the “SmartTake” section varied each day.

How AllSides Made This Analysis as Objective as Possible

AllSides only took the bias of the overall media outlet into account – not the content of the article itself. For example, any article curated from [The New York Times \(Lean Left\)](#) was considered Lean Left, reflecting the outlet’s overall AllSides Media Bias Rating at the time of the analysis. AllSides Media Bias Ratings™ reflect the average judgment of people across the political spectrum, not one individual or group. AllSides’ media bias rating methodology is based on multiple methods, including Blind Bias Surveys of Americans across the political spectrum and expert panel reviews by a multipartisan group. This prevents one elite group or individual from having a disproportionate impact on the ratings.

“Spot checks” were performed to ensure the same content was seen by different AllSides team members from different locations in the U.S.

About AllSides™

AllSides™ is a media solutions company that strengthens our democratic society with [balanced news](#), [media bias ratings](#), [diverse perspectives](#), and [real conversation](#).

AllSides' balanced newsfeed provides news from the left, center, and right and is powered by over 1,400 AllSides Media Bias Ratings™ that reveal the average judgment of Americans, not one elite group. AllSides serves news consumers at AllSides.com and provides patented technologies, tools and services — including media bias audits — to media companies, nonprofits, businesses and other organizations. Visit [AllSides.com/services](#).

AllSides provides a platform for a diverse range of perspectives on current events and political issues. This includes presenting news and analysis from multiple viewpoints, including those that may not be represented in mainstream media. AllSides aims to foster greater understanding and dialogue by providing a space where people can learn about and engage with perspectives that differ from their own.

AllSides' mission is to free people from filter bubbles so they can better understand the world — and each other. AllSides [employs](#) a multipartisan team of editors who review and curate news articles from a variety of sources. The articles are then presented side-by-side in a balanced newsfeed that reveals the political perspective of the source.

Since 2012, AllSides has been analyzing the media bias of news outlets using its patented and proprietary systems, providing over 1,400 [media bias ratings](#) for news sources, writers, fact-check organizations, and think tanks. AllSides believes everyone is biased, and that's okay. But hidden bias can manipulate, mislead, and divide us.

AllSides provides Media Bias Audits to news companies interested in discovering their bias and providing more objective, balanced news. Its patented and proprietary system reveals how average Americans perceive the political bias of news reporting, and its multipartisan panel provides recommendations for achieving more balanced news.

In addition to providing news and analysis, AllSides also offers tools and resources for individuals, schools, and organizations interested in promoting media literacy and understanding. This includes the [AllSides Media Bias Chart™](#), [AllSides for Schools](#), [Red Blue Translator](#), and other [tools](#) and [services](#).

About AllSides Media Bias Ratings™

AllSides empowers you to understand the role media bias plays in the news and information you consume. [AllSides Media Bias Ratings™](#) and the [AllSides Media Bias Chart™](#) help make news bias transparent, allowing you to easily identify different perspectives and political leanings so you can get the full picture and think for yourself.

AllSides Media Bias Ratings™ are based on a scientific, multipartisan analysis, and are meant to reflect the average view of the American public. In other words, they are meant to reflect the average view of people across the political spectrum, not one individual or group.

AllSides believes there is no such thing as [unbiased news](#), and that concealed bias can mislead and divide us. The best approach is to acknowledge and balance this bias, so that people can consider multiple viewpoints and gain a more comprehensive understanding of the world around them.

AllSides assigns a rating of [Left](#), [Lean Left](#), [Center](#), [Lean Right](#), or [Right](#) to each media outlet or writer, as well as a numerical rating using the [AllSides Media Bias Meter™](#), which provides more nuance in each category.

The AllSides patented bias detection and display technology is powered by a combination of the ‘wisdom-of-the-crowd’ technology and statistical research and methodologies. The system utilizes multiple methods for calculating media bias, and combines them for the best results. For each source, the methodology may include:

- **Blind Bias Surveys** — A survey that asks respondents to rate the media bias of a news outlet on a left-right scale without knowing the news source or author they are reviewing. AllSides normalizes these data based on respondent ideology to ensure that the audience reflects the social and political diversity of the nation.
- **Editorial Reviews** — A multipartisan panel conducts in-depth reviews of a media outlet. The Editorial Review Panel includes people from across the political spectrum. During this process, each reviewer independently evaluates and suggests a rating for the source. Then, the group discusses individual findings, shares impressions, and comes to an agreement on the result.
- **Third Party Data** — When available and relevant, data that is conducted by a transparent, credible source may inform AllSides Media Bias Ratings™. AllSides always notes which third-party analyses it has taken to account on the source page for any outlet.
- **Community Feedback** — Visitors to AllSides.com can vote on the rating for any outlet. This feedback does not determine our ratings, but may trigger a deeper review.
- **Independent Reviews** — An AllSides reviewer assesses content and comes to a general conclusion on a source’s bias. This is AllSides’ lowest level of analysis, usually undertaken to give initial, low-confidence ratings.

For more information about how AllSides rated media bias, visit its [media bias rating methods page](#).
